

PAPER BIRD

TAKE AND MAKE

Materials:

- Bird template
- Colored paper
- Googly eyes
- Glue
- Scissors

Directions:

- Cut out the bird template.
- Fold the largest piece of construction paper in half and trace the bird template onto it.
- Slightly fold the bird body in half and use scissors to cut the slit shown on the template.
- Accordion fold the other 2 pieces of colored paper. One will be the wings and the other will be the tail.
- Fold the larger accordion folded paper in half. This will serve as the wings.
- Push the wings through the slit in the bird body with the bend facing upward. Spread the accordion folds out.
- Glue the tail piece in between the back of the bird body.
- Use the smallest piece of paper to cut out 2 triangles of the same size and glue them on the head to make a beak.
- Lastly, add 2 googly eyes on the head of your bird.
- **Optional** - You may use the bird template to trace the belly sections on a different color paper and glue them to each side of the bird.
