Dear Mayor Lo and Councilmembers,

My name is Jose Sanchez and I am a teacher, resident and parent and I support bringing back the Spirit Bus. Thank you for considering a 1 year contract to reinstate operations of the Spirit Bus. Many of my students use the Spirit bus to get to school, go home and get around our city. The spirit bus serves a purpose in our community: for those who cannot drive it serves as a method of transportation. Furthermore, public transportation helps connect our residents and our community and is good for the environment.

I also highly encourage the City Council to direct staff to study possible alternative routes to the Spirit Bus. Ridership was low prior to the pandemic because the routes have not changed for a long time. The city should consider routes that allow residents to get to the Marketplace and other shopping destinations. The staff should also consider speaking to all schools in our city and survey students and parents about expanding ridership for students and families.

I thank you for your time and consideration.

Sincerely,

Jose Sanchez, Resident District-3

I think it is crucial for the Spirit Bus to return. It is wonderful news that there will be a 1 year contract to reinstate operations of the Spirit Bus, but I highly suggest that possible alternative routes be considered as well. The city should consider routes that allow residents to get to the Marketplace and other shopping destinations.

Dear Mayor Lo and Councilmembers,

I support bringing back to the Spirit Bus. Thank you for considering a 1 year contract to reinstate operations of the Spirit Bus.

I used to ride the Spirit Bus every week after school in high school to go home or to the library after extra curricular activities at Mark Keppel. It was an essential way for me to get around without a car.

I also highly encourage City Council to direct staff to study possible alternative routes to the Spirit Bus. Ridership was low prior to the pandemic because the routes have not changed for a long time. The city should consider routes that allow residents to get to the Marketplace and other shopping destinations.

Sincerely,
Angela Lin
